

KI Labs Bachelor KI & Data Science (KIDS)

LS XII (NLP) & LS XV (ML for Complex Networks) CAIDAS, Universität Würzburg

20.10.2023

KIDS Labs in BSc KIDS

Bachelor of Science Künstliche Intelligenz und Data Science

Pflichtbereich

ereich Wahlpflichtbereich

Schlüsselqualifikationen Abschlussbereich

Anwendungsfach: insgesamt maximal 10 ECTS

KIDS Labs in BSc KIDS

Kurzbezeichnung	Version	Modultitel (Deutsch/Englisch)	Art der LV (SWS)	ECTS-Punkte	Dauer (in Semestern)	TN und Auswahl	Bewertung	Art und Umfang der Erfolgsüberprüfung	Prüfungssprache	Zuvor bestandene Module	 Bonusfähigkeit, LV-Sprache, Prüfungsturnus, weitere Voraussetzungen Zusatzangabe zur Dauer, Sonstiges
10-I-KIDS- Lab1	2023-WS	Künstliche Intelligenz und Data Science Lab 1 Artificial Intelligence and Data Science Lab 1	R(6)	10	1		NUM	Präsentation der Projektergebnisse (30-45 Min.)	Deutsch und/oder Englisch		 Bonusfähig Deutsch oder Englisch
10-I-KIDS- Lab2	2023-WS	Künstliche Intelligenz und Data Science Lab 2 Artificial Intelligence and Data Science Lab 2	R(6)	10	1		NUM	Präsentation der Projektergebnisse (30-45 Min.)	Deutsch und/oder Englisch		 Bonusfähig Deutsch oder Englisch
10-I-KIDS- Lab3	2023-WS	Künstliche Intelligenz und Data Science Lab 3 Artificial Intelligence and Data Science Lab 3	R(6)	10	1		NUM	Präsentation der Projektergebnisse (30-45 Min.)	Deutsch und/oder Englisch		 Bonusfähig Deutsch oder Englisch

KIDS Lab 1 & 2

- Several small(er)-scale projects
- Individual practical work (not in teams!)
- 3 weeks completion time for each project
- 60-80 hours of work per project
- KIDS Lab 1: "Traditional" AI & Data Science (not ML)
- KIDS Lab 2: Machine learning and deep learning

KIDS Lab 3

• Same organization as master-level praktika

- One large(r)-scale project
- Team work (typically in teams of 3-4 students, but depends on the LS)
- Apply for a "Praktikum" to a <u>concrete LS</u>, for example
 - Praktikum Graph Neural Networks (LS XV, Prof. Scholtes)
 - Praktikum Natural Language Processing (LS XII, Prof. Glavaš)
 - Praktikum Machine Learning (LS X, Prof. Hotho)
 - Praktikum Computer Vision (LS IV, Prof. Timofte)
 - Praktikum Reinforcement Learning (Prof. D'Eramo)
 - Praktikum Vision & Language (LS IV & LS XII)

• ...

• 300 hours of work per team member!

- Four "lab assignments" (i.e., small-scale individual projects)
 - Lab 1: State space search (Undirected & Heuristic)
 - Implement several state space search algorithms from scratch, and apply them to a concrete state space search problem. Investigate the effects of various heuristics in A* (optimism, consistency) on solution quality and search time.
 - Lab 2: Rule-Based Reasoning (Constraint Satisfaction & Expert Systems)
 - Implement the backtracking algorithm and apply it to several practical problems; given domain knowledge and constraints in the form of an expert system, implement reasoning via backward chaining and apply on several concrete examples.

- Four "lab assignments" (i.e., small-scale individual projects)
 - Lab 3: Logics and Intelligent Agents (in a Simulated Environment)
 - The goal of this mini-project is to implement intelligent agents that are able to navigate in an unknown (2D) environment. In this project, you will learn how to use formal logics to implement simple intelligent agents.
 - Lab 4: Graph Algorithms (for Large Network Data)
 - In this mini-project, your task is to implement a basic framework that facilitates the analysis of large (social) networks. You will use basic graph algorithms (covered in AKIDS 1 and AKIDS 2) to calculate node centralities, and you will learn how we can use optimization algorithms to visualize graph-structured data.

- Lab 1: published on Monday, Oct 23, 2023
 - Submission deadline: Sunday, Nov 12, 2023, 11.59 CET
- Lab 2: published on Monday, Nov 13, 2023
 - Submission deadline: Sunday, Dec 3, 2023, 11.59 CET
- Lab 3: published on Monday, Dec 4, 2023
 - Submission deadline: Sunday, Jan 7, 2024, 11.59 CET
- Lab 4: published on Monday, Jan 8, 2024
 - Submission deadline: Sunday, Jan 28, 2024, 11.59 CET

KIDS Lab 1: Grading

- Defence / Oral Exam
 - Feb 5-9, 2024 (week before the exam period)
 - Explain and/or modify your code as per examiners' requests
 - All four labs eligible (we can ask you about any or all of them)
- No "Nachklausur" for a practical course like this
 - Next examination will be in WS24/25
 - But keep in mind that the concrete Labs may change by next year!

Who to Talk to?

- Labs 1 & 2 (LS XII)
 - Fabian David Schmidt
 - Benedikt Ebing
 - Prof. Goran Glavaš
- Labs 3 & 4 (LS XV)
 - Anatol Wegner
 - Prof. Ingo Scholtes
